Other

Description of Other Released Contaminant:

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

No explosive atmosphere or immediate health hazard risk. The annular preventer was closed and the well secured.

Areal Extent:

Potential Environmental Impacts:

No impact to surface or groundwater. Released fluids were contained on the constructed well site.

Action Taken or Planned:

Upon release of the fluid the annular preventer was closed and the well secured. The well will be completely circulated with kill weight fluid prior to proceeding with well service operations. Jim Potts - NDIC inspector was notified telephonically. The release fluids will be vacuumed up and the affected well site soil scraped up and hauled to an approved disposal facility

Wastes Disposal Location: An approved waste disposal facility.
